

Join the Club today

Our Pet Health Club is a great way to provide essential routine and preventative care for your pet.

The Club differs from pet insurance in that it covers treatments such as vaccination, worming and parasite control.

We believe that a proactive approach to your pets health is better than waiting until they become ill to put things right.

A preventative approach also gives you the peace of mind that your pet is getting the best possible health care helping them

to lead a happier, healthier life. Additionally, you can also make useful savings on routine neutering, microchipping and prescription and life-stage diets.

For senior pets, savings can be made on in house blood tests, urinalysis and blood pressure testing. These tests can be helpful in detecting early signs of disease and illness.

We can't emphasise enough how important it is to provide routine veterinary care and joining the Pet Health Club will help you do so for an affordable fixed monthly cost. Please look through this information and if you have any questions please feel free to speak to a member of staff.

www.farehamcreekvets.co.uk
